

Faculty Research Travel Funding

The departmental policy for research travel will remain essentially the same as it was in the past. Up to \$800 per faculty member per fiscal year (July 1 through June 30) will be available (unused funds do not carry over to next fiscal year). These funds will come from departmental RIF. Since the amount of RIF funds is limited, I request that if you have a grant or other source of funds that will support travel, that those funds be used rather than departmental RIF.
